Keller testified that Cunningham gave him the half of a pint of whisky, which he drank, and after that three more drinks. Then, he said, he was "nearly drunk." After that Cunningham gave him a quart of whisky and \$5 and a ticket which he said had two or three Democratic names on it. This ticket Keller put in his vest pocket, having already a Republican ticket in his trousers pocket.

The man David Wilson, who was shot at Elm Grove Sunday evening by Bartley Fishery, was reported yesterday to be quite as comfortable as could be expected under the circumstances. The physicians probed for the ball yesterday without result, and they said that the probable result of the wound could only be conjectured. The injury is a very grave one. The wound somewhat resembles that which killed President Lincoln, but is a much smaller one. Exactly such a wound was shot by Harry Paxton, who was shot by one of the Beale boys, north of the city, was mentioned by Mr. Arkle yesterday. THE CITY SCHOOLS. Meeting of the Board of Education last night. The Board of Education, which adjourned last Thursday evening for want of a quorum, got together last night with President Miller in the chair. The minutes of the last meeting were read and approved. Superintendent Anderson's monthly report was read, as follows:

Table with columns: Schools, Enrollment, Average Daily Attendance, etc.

MANUAL TRAINING. The Committee on Teachers and Schools presented a report covering two school-written papers. With regard to the introduction of the manual training course into the schools, the committee deems it a very important thing, but is of the opinion that to get the results the system should only be applied to the larger pupils, and that it should be taught in a separate building from the rest of the school building. Since these conditions cannot well exist, the committee is of the opinion that the time for taking definite action has not arrived. The committee, consisting of Messrs. W. Tyler of Cleveland, Chief Counsel of the Cleveland, Lorain & Wheeling railroad, was at the Windsor yesterday.

MISS ANNIE O'DONNELL, of Buckhannon, Va., who has recently been visiting her cousin, Capt. Dominick Morris, in Washington City, is now visiting her mother, Mrs. Fitzpatrick, on Seventh street.

IMPORTANT TO HOUSEKEEPERS. Featherbeds, Mattresses and Upholstered Furniture Renovated at Home. The great amount of sickness which existed in the city during the past winter has left nearly every household with one or more beds in such condition that they are not pleasant to sleep on. Pillows, mattresses and upholstered furniture are full of germs of disease, and frequently outbreaks of fever and malignant diseases are due to warm weather bringing in life these germs. The importance of having beds and furniture thoroughly cleaned is not only on the surface, but the ordinary insecticides contents should be thoroughly washed and steamed. R. T. Ford is prepared to do such work at very reasonable prices. He has been here for many years, and can give five hundred references as to his ability and promptness. He makes a specialty of cleaning beds, pillows, mattresses and upholstered furniture, and has been doing so for many years. He has a large stock of goods entrusted to him in a perfect, pure and healthy condition. Furniture is upholstered and made as good as new. All orders left at No. 1321 East street, church lot, or at No. 1321 East street, 1208 Market street, will be promptly attended to. All goods will be called for and delivered free of charge. In this respect, there is nothing equal to R. T. Ford's service. Many of whom never travel, should send to them, and more frequently take out a part of the feathers.
